EDUCATION

Guru Gobind Singh Indraprastha University

2020-2024

Bachelor of Technology in Information Technology (CGPA - 9.4)

Delhi, India

EXPERIENCE

Hopstack

July 2024 – December 2024

Software Engineer

Bangalore

- **Developed Bundling Summary screen:** Created an intuitive interface with advanced filter functionality to display bundling statistics, improving user data accessibility and search efficiency by **30**%. Built optimized Node.js APIs to streamline the retrieval of bundle picking, bundling, and putaway data using unique IDs, reducing data retrieval time by **20**%. Enhanced warehouse operational workflows, achieving a **25**% increase in efficiency through real-time progress tracking.
- Implemented Rate Shopping feature: Enabling users to compare carrier options, select Incoterms, improving decision-making efficiency by 35% and saving clients over \$25,000 annually through cost-effective carrier selections. Developed and integrated the frontend interface in React.js, including a dynamic side panel and real-time data updates, enhancing user experience. Optimized backend APIs and connectors for seamless cross-service data retrieval, ensuring audit trail updates and real-time order visibility, boosting operational accuracy by 30%

Hopstack Feb 2024 – May 2024

Software Engineer Intern

Remote

- **Developed Tax Calculation Functionality:** Implemented a robust system to calculate taxes on items being shipped between locations, reducing API errors by **30**% and increasing user input accuracy by **25**%.
- Implemented Payment Due Notifications: Created a feature to display a persistent banner for payments due within 15-30 days and a non-dismissible modal for overdue payments exceeding 30 days, preventing user redirection and ensuring prompt attention to outstanding dues. Achieved 40% reduction in overdue payments and improved user compliance for 25,000+ active accounts.
- Enhanced User Interface Sorting: Modified the codebase to sort various dropdown lists in alphabetical order, reducing search time by 40% and improving user experience and data accessibility.

TECHNICAL SKILLS

Skills: C++, C, JavaScript, HTML, CSS, NextJS, ReactJS, NodeJS, Redux, Express, MongoDB, Tailwind CSS, Material UI, TypeScript, SQL, Golang, AWS, GCP, Docker, Kubernetes, Bash, REST APIs, Kafka, Git, Jenkins, CI-CD

Core Subjects: Data Structures and Algorithms, Object Oriented Programming, Operating System , Computer Networks, Database Management System

PROJECTS

SocioPedia | ReactJS, MongoDB, ExpressJS, NodeJS, Material UI

Live | Github

- It has a comprehensive set of social media features. Users can add posts, interact with posts by **liking and disliking** them, viewing post comments, and **adding/removing friends** from their friend list.
- Users can explore the **profiles** of other users whose posts appear in their feed. They can view the person's friends, write posts for them, and see their posts and likes.
- All the information displayed in the application is fetched from the backend APIs that is created from scratch.

CarHub | NextJS, ReactJS, TypeScript, Tailwind CSS, Rapid API

Live | Github

- Developed a dynamic and user-friendly **car search platform** allowing users to search for vehicles based on **advanced filtering capabilities** such as make, model, year, etc.
- Utilized **Rapid API** to seamlessly fetch real-time car data, handling data to enhance the application's functionality and reliability.

LEADERSHIP AND ACHIEVEMENTS

- Achieved **Grand Finalist** status at Microsoft Azure Women Hackathon which was a women-focused tech event.
- Finalist at prestigious coding competion, TechGig Goddess Coding Contest, powered by AMEX,
- Achieved **5th** position in Live The Code Hackathon out of 200+ teams.
- Solved **650**+ questions on different coding platforms, enhancing proficiency in algorithms and data structures.
- Problem Setter at Codechef Adgitm Chapter, crafted intricate problem sets for various coding competitions.
- Achieved Global rank **799** in Codechef Starters 69 which is in top 8% of all participants.
- Completed Virtual Internship at JP Morgan Chase and Co
